Frank Rausche G'70 was awarded the 2009 G. Brooks Earnest Technical Lecture Award by the Cleveland Section of the American Society of Civil Engineers. The prestigious GBE award was established by the Cleveland Section in honor of G. Brooks Earnest '27, who was its president in 1943, National President of ASCE in 1962, and President of Fenn College from 1952 until the formation of Cleveland State University in 1964. The award is presented yearly to an outstanding individual of prominence in the field of Civil Engineering.

Dr. Rausche is president of GRI Engineers, Inc., a partner in Pile Dynamics, Inc. and a founder of both companies, which are headquartered in Cleveland. He is a prominent researcher and one of the early pioneers of the field of Dynamic Testing of Deep Foundations and Wave Equation Analysis of Pile Driving. Dr. Rausche developed these methods at Case and later took them to market through GRI and PDI. Today his techniques are being used every day all over the world.
