

## GRL Establishes Office in California

GRL Engineers, Inc., headquartered in Cleveland, Ohio, an ADSC Technical Affiliate member firm, recently announced the opening of a new location in California. Camilo Alvarez is in charge of the office located at 516 Crane Blvd., Los Angeles, California 90065. He can be reached in California by phone at 323/441-0965 and by Fax at 323/441-0975.

GRL is a thirty year-old civil engineering consulting firm specializing in dynamic testing of drilled shafts and piles, particularly dynamic load testing (PDA), cross-hole sonic logging (CHA), pulse echo and transient response (PIT). In addition to their headquarters and new California location, they have offices in Colorado, Florida, Illinois, North Carolina and Pennsylvania.
